

THE BROWNING SCHOOL
1 8 8 8

Dear Browning Families:

We are humbled by the trust that you place in our school to serve your boys, and we honor that trust by ensuring that our academic, co-curricular and character education programs work in concert to develop the men the world needs. We write today to share that the Board of Trustees has set school-wide tuition at \$54,150 for the 2020-21 academic year. Your partnership with and investment in Browning enables us to continue to fulfill our strategic plan for strengthened investment in faculty, programs, and facilities.

To be sure, your tuition dollars help Browning's accomplished, committed, and enthusiastic faculty serve our mission and develop our students into Browning gentlemen every day. We aim to be an institution that offers relationships and rigor, opportunities to serve and to lead, and promotes empathy as well as intellect. As Browning is a boys' school by choice not by chance, we remain committed to being at the forefront of research-based best practices for educating boys from childhood through early adulthood.

Families in our community have many choices for the education of their sons and we are excited that you have chosen Browning. We look forward to welcoming your sons back to Browning next year and watching how they will grow in intellect and integrity that will change the world for the better.

Sincerely yours,

Valda Witt
President, Board of Trustees

John M. Botti
Head of School
