

THE BROWNING SCHOOL
1888

COVID-19 Vaccination Requirement

All students are required to be fully vaccinated against COVID-19.

All students are required to be fully vaccinated to attend The Browning School by August 15.

A student is considered fully vaccinated if they have completed the initial dose(s) of a COVID-19 vaccine. (For Pfizer and Moderna mRNA vaccines, the primary series is two vaccine doses. For the Johnson & Johnson (J & J) COVID-19 vaccine, the primary series is a single vaccine dose.)

Parents of incoming Kindergarten students who may not yet be eligible for the vaccine should plan to begin the vaccination series within one month of their 5th birthday.

Browning strongly encourages families to have a booster shot administered to their eligible boys.

Should you have any questions about this, please contact [Kelly West](#).
